

## SIZE CHART

### GETTING THE SIZE CORRECT

To check your head size, measure around the largest part of your head - the tape should go above the eyebrows and over the "bump" at the back of your head. Do not pull the tape too tight. Refer to diagram.

Once you have measured your head, or if you already know your hat size, please refer to the following chart to work out the correct size to order. Akubra and Tilley are ordered in a cm size (55 - 61); Barmah, Top Show and Funnel Web are all based on the International Size (XS - XXL). Should you be ordering a Tilley, we suggest adding 2cm sizes onto the size that you have calculated using this size chart, however we will contact you to ensure that we get the size right. While there is some small variation between the other brands, we feel that this chart is accurate if the measurement of your head has been accurate. We maintain that it is easier to make a large hat smaller than a small hat larger, and for this reason, we will include materials that will help you get the fit 'just right'.

Measure around the largest part of the head.
